

Responding to Our Climate: Three Towns Look Ahead

Is there a place in your town that you love and want to protect?

Have you seen coastal flooding in your town?

Want to make your voice heard as part of the Three Town Climate Vulnerability Assessment?

On Saturday, September 30 join the Gulf of Maine Research Institute and GEI Consultants for a day of Community Mapping events!

Schedule of events:

Drop in for a Community Mapping event in your town sometime between:

- 9:00-10:30 in Brooksville @ Brooksville Townhouse, 1 Townhouse Road
- 11:30-1:00 in Blue Hill @ Blue Hill Co-op, 70 South Street
- 2:00-3:30 in Surry @ Old Surry Village Schoolhouse, 7 Toddy Pond Road

Join us for a Three Town Community Meeting to explore and contribute to the mapping results, learn about climate hazards, celebrate the kickoff of the Three Town Vulnerability Assessment and learn how you can continue to participate in this project.

- 6:00 pm-7:30 pm in Blue Hill @ Blue Hill Consolidated School, 60 High Street

*Refreshments will be provided at each event.

What is Community Mapping?

Community mapping is a collaborative process to identify local assets, resources, and risks in your community. Swing by our table while you are out and about for the day and share the places that matter most to you and your experiences with climate impacts such as flooding.

Climate Vulnerability Assessment Committee: From Blue Hill: Randy Curtis, Drew Kelly, Jeff Milliken. From Brooksville: Bob Knight, Michael Sinclair, Peter Suber. From Surry: Dennis Riley, Irene Schmidt, Chris Stark.
